*Feedback on cooperation with GIS-point*

Dear,

I, Julien Ernst, manager at GlobeZenit, have the honour to provide feedback on our cooperation with GIS-point in a project dedicated to Lidar data processing in cities.

Throughout the project, the GIS-point team demonstrated a high level of professionalism. Their experts had deep knowledge of data processing and showed the ability to quickly adapt to changes and new challenges. The team always met deadlines, which demonstrates their serious approach to work and responsibility.

Among the achievements that deserve a special mention is GIS-point's efforts to improve the accuracy and speed of data processing on a daily basis, which has improved the overall quality of our project. I am also impressed by their willingness to work closely together and share ideas, which helped us achieve common goals.

Based on our experience, I can confidently recommend GIS-point as a reliable project partner. Their team is characterised by professionalism, quality work and willingness to cooperate.
